

**LIST OF PROPOSED MONOGRAPHIC LECTURES FOR ACADEMIC YEAR
2025/2026**

Field of study: Chemistry

Winter semester:

1. Fluoropolymers, i.e. macromolecular fluorine derivatives – a unique element, a variety of applications – prof. UAM dr hab. Justyna Walkowiak-Kulikowska
2. Macromolecular chemistry: From structure to function – new horizons in materials science – prof. UAM dr hab. inż. Róża Szweda
